Accommodation information

You are responsible of the classroom where you are accommodating. Keep it clean and check that everything stays intact. If the trashcan is full – deliver it to the bigger trash can and ask new bag from the accommodation office.

You may not enter the classrooms with shoes on. Remove shoes and keep them outside of the classroom in order.

Inform our information desk before the toilet paper runs out or if you find something that is not right.

Do not drink or eat at the accommodation class rooms – there are plenty of space to eat and drink at the lobby.

Before you leave from the accommodation: You must clean the class room with the equipment you get from the accommodation info. The classroom must be left in the condition it was before we arrived.

If something gets broken – inform the information desk right away.

Special feature at the school: At some class rooms there are really expensive wall panels and white boards which **MUST** stay intact and untouched. We must not draw or touch the delicate surfaces and electronic devices. Do not jump on the walls or play games in side the classrooms 🙅

Information desk at the accomodation

As you arrive first time: You must write and accomodation registration where we collect names of each classroom. Then we will guide you to the classroom you are going to stay.

We have arranged class rooms beforehand and we'll let you know your location as you arrive.

Sleeping: You must have your own planket, pillow and mattress. Max width for mattress is 90 centimeters.

We also recommend earplugs – those are handy at sports camps because several people sleep in same room.

Our Information desk is available 24h and there will be a person who is guarding the entrance 24h. So there will be no outsiders inside our accomodation school. You can keep your accomodation room locked – we can open it as you arrive back to the accomodation place.
